PROFESSIONAL SUMMARY

Passionate Full-Stack Developer with hands-on experience in both front-end and back-end technologies, gained through university projects. Proficient in building scalable applications, bridging user needs with technical solutions, and delivering seamless user experiences. Eager to apply my skills in a dynamic Full-Stack Developer role, contributing to innovative solutions and continuous growth.

SKILLS

- | | |
|-------------------------|----------------|
| • Java script | • Python |
| • React | • RESTful APIs |
| • Django | • Bootstrap |
| • Django Rest Framework | • HTML, CSS |
| • MySQL | • GIT, GITHUB |

PROJECTS

Blogging Platform

- Developed a platform allowing users to create, edit, and manage personalized portfolios with customizable features using **HTML**, **CSS**, and **React**.
- Implemented commenting and feedback functionalities to foster user interaction and collaboration within portfolios.
- Utilized **HTML**, **CSS**, and **React** for front-end development, with **Django** for back-end functionality and **MySQL** for database management
- Ensured the platform was fully responsive, providing an intuitive and seamless experience across devices.

Personal portfolio

- A **personal portfolio** showcasing my skills in **web development**, and along with detailed descriptions of key **projects** and **achievements**.
- Designed to offer a seamless **user experience**, my portfolio features an **interactive layout** with a focus on my **technical expertise**.
- Built using **HTML**, **CSS**, and **React**, my portfolio highlights my **projects**, **certifications**, and **growth**, offering a comprehensive view of my **skills** and **achievements**.

Smart Quest Project

- **Developed and optimized web applications** using **React, JavaScript, HTML**, and **CSS**, ensuring responsive design and a seamless user experience across devices.
- **Designed and implemented database-driven web applications**, leveraging **SQL** to manage and integrate complex data structures with backend systems.
- Utilized **Agile software development** methodologies for efficient **project management**, ensuring iterative development and timely delivery of features that aligned with **user requirements** and client specification

E-Commerce websites

- **Designed and developed web applications** using **back-end technologies** such as **Python**, ensuring seamless integration with **front-end technologies JavaScript**.
- Worked with **database management systems** (e.g., **MySQL**) to structure and optimize **database-driven applications**, ensuring high availability and efficient data storage.
- Focused on **web performance optimization**, improving site **speed, scalability**, and **responsiveness**, while ensuring **cross-browser compatibility** for a consistent user experience across devices.
- Utilized **version control systems** and actively participated in **code reviews** to ensure high-quality, maintainable code and smooth collaboration within the development team.

EDUCATION

Computer Science – Bachelor Degree University of Engineering and Technology, Lahore, Pakistan	March 2021 - April 2024
Computer Science – Intermediate Apex Group of colleges, Lahore, Pakistan	Feb 2019 - Feb 2021
